			via Frankfurt/Oder		
17 May	22 boxcars	ammunition	Dannenwalde	Insterburg	135/ 1665 *

\* ~~CONFIDENTIAL~~ Comment. The report confirms and supplements previous information.

See ~~CONFIDENTIAL~~. All the grain shipments reported, an unusually large number, were grain shuttle-trains. A total of 150,000 tons of grain is scheduled to be imported per month by the Soviet Zone of Germany from the U.S.S.R. The ammunition shipment observed on 17 May 1951 is believed to have been dispatched by the Soviet ammunition depot in Dannenwalde. See ~~CONFIDENTIAL~~.

\*\* ~~CONFIDENTIAL~~ Comment: This is not further identifiable in our available reference material.
